Government Proceedings No. R. 6111-9—Agri. 70-06-5, dated the 18th December 1906, directing that the annual return of coffee cultivation in Mysore be submitted to Government not later than the 15th of March:

2. Correspondence ending with letter No. 7355, dated the 21st January 1909, from the Revenue Commissioner in Mysore, in the matter of revising the form of the return so as to comprise information for a complete coffee season.

No. R. 5498-506—AGRI. 78-08-5, DATED BANGALORE, 29TH JANUARY 1909.

ORDER THEREON.—The annual return of coffee cultivation will hereafter be furnished for the year ending 30th June so as to comprise information for a complete coffee season. The form in which it is to be furnished is also revised and appended to this Order. Government have no objection to the information regarding quantity being obtained by the Revenue Commissioner with the lb. as a standard but in the return to be submitted to Government, the quantity should be given in bushels.

2. The first return in the revised form will be that for the current official year.

Statement of the production of coffee in.....during the year ending 30th June.....

District	Number of plantations on 30th June	Area under coffee on previous 30th June	New area placed under coffee (including replanting in areas) abandoned in previous years	Coffee cultivation abandoned during the year	Total area under coffee	Area that has been plucked during the year	Area that has not been plucked during the year	Persons employed (daily average)		Quantity (in bushels of coffee)	
								Permanent	Temporary		
1	2	3	4	5	6	7	8	9	10	11	
		Acres.	Acres.	Acres.	Acres.	Acres.	Acres.			Cherry, dried.	Parchment.

COLUMNS 3=6.—The sum of columns 3 and 4 *minus* column 5 should equal the total in column 6.

COLUMNS 7 and 8.—The sum of these two columns should be equal to the total in column 6.

COLUMN 10.—The number of persons employed for any period less than a year should be multiplied by the numbers of days in that period and the total divided by 365. The result should be entered in this column. For example, if an estate employed 30 persons for 90 days, 40 for 60 days and 100 for 45 days,

30×90=2,700
40×60=2,400
100×45=4,500

the total 9,600 divided by 365 gives 26 in round numbers which is the figure to be entered in this column.

COLUMN 11.—The figures in this column are not intended to represent the same coffee in two stages (on the analogy of rice and paddy) but the actual quantity produced, whether it be in the form of cherry dried or parchment coffee at the time of report.

NOTE.—(a) The return should be despatched to the Government before the end of October each year and forwarded to the Residency by the 10th November.

(b) Explanations of noticeable variations in the figures of the year compared with the previous year together with any information regarding the character of the season and crop, trade and other points of interest connected with the condition and prospects of the industry, should be furnished.

(c) If any rectifications or additional particulars are received after the return for the year has been submitted, a supplementary return for that year should be forwarded.
